This declaration refers to the following measures:

- Regulation (EU) 2025/40 of the European Parliament and of the Council, on packaging and packaging waste (PPWR);
- in particular, Article 5, which introduces requirements relating to PFAS and heavy metals for packaging intended to come into contact with food

Declaration regarding PFAS

Based on the available information and the declarations received from its suppliers, Eurovetropac Srl declares that, in the products indicated above, per- and polyfluoroalkyl substances (PFAS), including PFOS and PFOA, are not intentionally used during the production of the supplied components.

This declaration refers exclusively to the non-intentional addition (Not Intentionally Added PFAS) and does not constitute a certification of the absolute absence of any traces deriving from accidental contamination or from the production supply chain.

Declaration regarding heavy metals

Based on the available information and the declarations from the supply chain, the materials used comply with the requirements set forth in **Article 5 of Regulation (EU) 2025/40** regarding the sum of the concentrations of:

- Lead (Pb)
- Cadmium (Cd)
- Mercury (Hg)
- Hexavalent Chromium (CrVI)

which must not exceed the overall limit of 100 mg/kg, as provided for by the Regulation.

Validity of the declaration

This declaration remains valid until:

- applicable regulatory changes occur;
- materials, components, or production processes are modified;
- new relevant information emerges from the supply chain or from the competent Authorities.
